Dear Parents / Carers,

Please find attached our photography permission slip. As you can see, our permission slip covers photography and video at school events, both on and off site. This could include such events as Christmas productions, sports events and press articles. 'Off site' permission relates to the invited audience or participants being able to take photos or videos, rather than to anyone who might just happen to be present at the event, and for whose actions we, as a school, could not reasonably be expected to be responsible.

We are also asking for your permission to use images of the school and children on our website and app, which are currently being designed and social media pages (currently Facebook and Twitter). These images WILL NOT have any names attached to them.

We hope that you will understand that, by asking for your permission, we are able to continue to allow all parents to record the important events that we hold in school and not have to follow the example of some schools where photography and videoing is not allowed. I feel very strongly that, for parents and carers, such events are an important record for you of your child's life in school and by gaining your permission, we will be able to ensure that all children can continue to participate fully in events such as school productions and that we, as a school, can continue to allow all parents to record them.

It would be helpful if you could complete the attached slip and return it to school in order that we can update our records.

Yours Sincerely

Andrea Tomlinson  
Headteacher
